🎓 EDUCATION

Shri Guru Gobind Singhji Institute of Engineering and Technology (SGGSIET),Nanded	2020 – 2024 NANDED, India

B.Tech-Computer Science and Engineering
CGPA - **8.70**

Netaji Subash Chandra Bose junior college,Nanded,Maharashtra	2018 – 2020 NANDED.

12th HSC
Percentage - **75**%

Mahatma Phule High School,Nanded	2018 NANDED, India

10th SSC
Percentage - **88**%

💼 PROFESSIONAL EXPERIENCE

Web Developer Intership @Abhyaz   **Sept-2023 – Oct-2023**

As a Frontend Developer Intern at Abhyaz, I actively contributed to web application development by collaborating on multiple projects. My responsibilities encompassed creating responsive and visually engaging user interfaces, employing HTML, CSS, and JavaScript to enhance web pages, and participating in debugging and code reviews. During my brief tenure, I successfully completed several projects, collaborated with cross-functional teams, and rapidly adapted to new frontend technologies, earning positive feedback for my dedication and proficiency in modern frontend development practices.

🧠 SKILLS

- Languages : Java, C, C++, HTML, CSS, JavaScript , React.Js , Jdbc, MySQL

- IT Constructs : Data Structure and Algorithm, OOPS

- Platform: Linux, Vs code , Windows , GIT , github , jupyter Notebook

📁 PROJECTS

• **E-Commerce App** ⧉
  - The **Ecommerce Project** is a **responsive** and user-friendly online platform built using *HTML, Styled CSS, JavaScript, and **React.js***. and products and info using **API** . Its purpose is to provide customers with a seamless shopping experience, offering a category wise **Filters** like amazon. The project's scope includes implementing a **cart and checkout system**, along with interactive **UI components,** to facilitate smooth navigation and secure transactions
  - The key feature lies in its efficient state management and modular design, ensuring scalability and maintainability for future enhancements and also added Local Storage.
  - visit deployed **Link** ⧉

• **DBMS Project** ⧉
  - The **Hostel Management System** is a comprehensive web-based application build using Html, Css, Javascript, MYSQL ,PHP and designed to streamline and **automate** hostel administration tasks. It facilitates efficient management of hostel facilities, room allocations, student records, and fee payments, enhancing the overall hostel experience for **both administrators and students**
  - Key features include real-time room availability,and easy access to student information.

• **Portfolio Website** ⧉
  - My portfolio showcases my **skills** in **web development**, design, and problem-solving. It aims to demonstrate my expertise in HTML, CSS, highlighting my ability to create **responsive** and visually appealing user interfaces.
  - visit deployed **Link** ⧉

• **Resume Site** ⧉
  - its my **resume** website
  - visit deployed **Link** ⧉

🏅 ACHIEVEMENTS

- **Leetcode** :- Solved 550+ Questions on leetcode | ContestRating 1610 | **Link** ⬈
- **CodeChef** :- Solved 200+ Questions on Codechef | 3 Star coder at Codechef | Max Rating 1610 | **Link** ⬈
- **Codeforces** :- Newbie at Codeforces | Max Rating : 1190 | Solved 180+ Questions on codeforces | **Link** ⬈
- **Coding Chaos** :-Won 2nd prize in Coding Competition by SGGSIE&T CodeChef Chapter Community | **Link** ⬈
- **Code Combat** :- Actively Participated Solo Coding Competition arranged by SGGSIE&T | **Link** ⬈
- **Last Programmer Standing** :- Participated Coding Competition arranged by SGGSIE&T

📑 CERTIFICATES

- Java 5 star gold badge at hackerrank ⬈
- Introduction To React js ⬈
- Html Css Javascript for Beginners ⬈
- Dsa and algo in java Intermediate level ⬈
